"Better Plants for New England"

Better Plants for New England Adams Mursery

Growing Since 1849

Conveniently located directly back of our office where you will find a comprehensive assortment of "SHOW WINDOW QUALITY" plants on display.

We invite you to visit our Nursery-Mart where you can select your Evergreens, Rhododendrons, Azaleas, Shade, Flowering and Fruit Trees, Flowering Shrubs, Potted Roses, and Perennials. Each will be labeled with name and price to save you time. You may go where you please, and stay as long as you like. You will not be approached unless you express a desire for service. We offer you our experience of over one hundred years in solving your plant problems.

In addition we have all the garden accessories, such as Fertilizers, Insecticides, Lime, Peat Moss, Grass Seed, Garden Tools, etc.

Plenty of parking space has been provided adjacent to the Mart.

The ADAMS NURSERY MART will be open April 1st and every week day during regular business hours. No business will be transacted on Sunday.

"BETTER PLANTS FOR NEW ENGLAND" is not a conceited statement. It is a slogan we adopted as a challenge to ourselves and an obligation to you. For over ONE HUNDRED YEARS we have been trying to make this slogan a reality. Modern mechanical equipment has improved our methods of cultivation, production and packing.

We are also continually testing scores of plants and eliminating those that do not possess the Yankee hardiness to withstand our rugged climate.

This discarding of inferior varieties assures our customers of receiving only BETTER PLANTS FOR NEW ENGLAND.

Landscape Your Home for Privacy and Better Living

Adams Planning and Advisory Service. We maintain a staff of competent landscape men, professionally trained and experienced to help home owners select the right plants for the proper locations. Whether you have a large estate or a cottage, we are thoroughly equipped to help you.

Perhaps you would like a hedge to give you privacy, a plant barrier to keep out wind and noise, a foundation planting for year round beauty, a Rose garden to bloom all Summer, a flowering shrub border to give color at various seasons, an outdoor living room or a complete plan for planting your home grounds, which can be accomplished on a budget plan.

The following three types of service are available:

- I. FREE SERVICE. There is no charge if you bring a photograph or plot plan, showing the measurements of existing conditions, to our NURSERY-MART. We will discuss your planting problems with you and make suggestions. While you are here you can see the plants recommended.
- 2. SERVICE FOR A NOMINAL FEE. Should you desire the services of one of our landscape men at your home, there would be a Service Charge of Five Dollars payable at time of consultation. This would include their suggestions, and a rough sketch, showing the arrangement of the plants suggested. Telephone for an appointment.
- 3. LANDSCAPE PLANTING PLANS. Should a complete detailed landscape plan be required we offer this service at a minimum charge of \$35.00, payable in advance with this fee scaled according to the size and complexity of the landscape problem.

PLANTING SERVICE. We urge our customers to "DO IT YOURSELF", especially on small orders. Planting can be arranged on orders amounting to \$100.00 or more by our Landscape Department. For those who desire planting service of smaller orders we will submit a list of available landscape contractors. Our SIX MONTHS GUARANTEE is valid regardless of who plants.

EVERGREENS

*Indicates broad-leaved varieties.

Evergreens are one of the most useful classes of plants because of their year-round attractiveness and permanent beauty. They are immediately ornamental after planting. In Summer, Evergreens give a refreshing coolness to the scene and in Winter their cheerful colors break the otherwise dull Winter landscape.

They may be divided into two general classes: Those of a truly dwarf habit of growth, which makes them desirable for foundation plantings, and those that attain considerable size and height, which makes them suitable for backgrounds, windbreaks, and specimens. With the exception of Pines,

Firs and Spruces, Evergreens are greatly benefited by an annual shearing during July.

A good selection of Evergreens is a permanent investment, increasing in value yearly. To those who are unfamiliar with their characteristics we suggest that you permit us to help you select the right plant for its proper place.

All Evergreen Prices include balled and burlapped. When ten or more plants of the same variety and size are purchased a 10% discount will be allowed.

*Garland Flower

Daphne cneorum

A dwarf, bushy plant of spreading habit, growing 8 to 12 in. high. It produces in May and June and again in September a great profusion of beautiful rose-pink, delicately perfumed flowers. Grows well front of evergreens and is unequaled for the rock garden. It forms a low hedge along garden walks and around flower beds.

*Drooping Leucothoe Leucothoe catesbaei

Low growing, graceful shrub with arching, spraylike branches. Foliage glossy dark green, turning to a russet-mahogany-red in Autumn. In Spring, fragrant white flowers are borne in clusters.

Spruce Picea

The name Picea comes from the Latin word pix meaning "pitch." Among the members of this family are found handsome and enduring trees for landscaping as well as producing some of the most valuable timber in the world. They are native to the northern hemisphere and like a moist but well-drained soil. Do not thrive in dry, sandy regions as well as pines.

Norway Spruce P. abies

Especially valuable for windbreaks, hedges, and reforestation. Makes a tall, pyramidal-shaped specimen often used as a living Christmas tree. Plants will be available in tubs during December for home use as live Christmas trees. The cost of tub and tubbing will be added to prices below.

Pine Pinus

In economic importance the Pine stands above all evergreen trees. It grows in a wide variety of soils and under a broad range of climatic conditions. It will not, however, endure shade, smoke, or an excess amount of dust. It prefers the open country, hillsides, and sandy slopes. Will withstand considerable drought and flourish on poor soil. Except for a few dwarf varieties, they are adapted for making groves, forests, wind-breaks, backgrounds, and specimens.

Mugho Swiss Pine P. mugo 'Mughus'

This is a low, flat, spreading evergreen growing horizontally to form a dense, compact mat. Rather coarse in texture but very useful for foundation plantings or rockeries. Endures semi-shade.

Yew Taxus

Its chief characteristics are its slow growth, luxuriant dark green foliage the year round, and scarlet berry-like fruits. The various garden varieties provide many different forms and shapes. They are absolutely hardy, easily trimmed into any desired shape, and well suited for hedges. Will thrive in most any type of soil or location. An excellent plant for foundations.

Dwarf Canadian Yew

T. canadensi 'Stricta'

Will make a very satisfactory dwarf evergreen hedge. Foliage dark green, of fine texture. Shears perfectly.

9 to 12 in.

Spreading Japanese Yew T. cuspidata

Rich, dark green foliage, ornamented in the Fall with numerous crimson fruits. Very popular as a hedge or foundation plant. Informal and spreading in shape, but can be easily sheared to keep within bounds. Grows well in either shade or full sun.

TRIMMING SERVICE

Many of the evergreens, especially Taxus, Thuja, Juniper and Hemlock, benefit by an annual shearing in late June, July or August. Moderate trimming each Summer makes for a bushy, compact plant that is less susceptible to sleet and snow damage.

Our men will be available for this service during the Summer or Winter months. Please phone for rates.

SPRAYING SERVICE

HEALTHY EVERGREENS are assured when sprayed at the proper time. During late Winter, dormant spraying may be safely done up to March 15th.

In June and July Evergreen spraying may again be necessary to combat Summer infestations. Our men and equipment are available at these times to render service. Please phone for rates. We are not equipped to spray fruit trees.

DECIDUOUS TREES

PLANT AMERICA with shade trees. It is hard to picture this country without trees, without the birds which seek their shelter, and without lumber to build our homes. Truly New England has a heritage which our forefathers left us.

Trees do not happen over night. You must plan ahead to enjoy their shade on a hot Summer day. Mark Twain once said, "Everybody talks about the weather, but no one does anything about it." By planting trees you can Control Your Private Climate, increase your comfort, and the valuation

of your property.

When ten or more plants of the same variety and size are purchased a 10% discount will be allowed.

Maple

The Maples are among our most ornamental and desirable trees for specimens and street planting. Here in New England they are also valuable for producing timber and sugar. Practically all are relatively fast-growing and not particular as to soil requirements. They are hardy, healthy, and produce cool shade and brilliant Fall colors.

Flowering Crab

Malus

Flowering Crab is a most unfortunate name, as it comprises a beautiful assortment of hardy, picturesque, rugged, small trees unsurpassed for their ornamental value. In addition to the flowers, which are various shades of pink and completely cover the trees in Spring, many varieties produce bright-colored, miniature apples which last well into the Winter and insure the birds a bountiful Thanksgiving dinner. They lend themselves readily to mass and screen plantings, or single specimens.

CLIMATE CONTROL

Your home can be made cooler in the Summer and warmer in the Winter by planting trees and shrubs in the proper places. Trees which will shade your roof and house walls from Summer heat will reduce your house temperature by 10%.

In the Winter they will shield you from Winter winds and reduce your fuel bills.

The evaporation of large quantities of water through the foliage produces a radiant cooling effect. Trees and shrubs are nature's air conditioners.

"PLANT IT YOURSELF" and Save Money

Additional pride and satisfaction are gained when you do your own planting and gardening.

If your plans are not too ambitious, planting can be a pleasure and a source of relaxation.

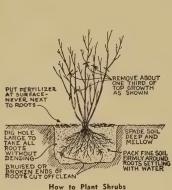

Planting requires no special skill and our SIX MONTHS GUARANTEE is the same regardless

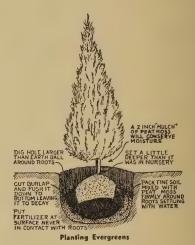

of who plants.

The rising cost of labor has caused a definite trend to "DO IT YOURSELF." The following sketches demonstrate how easy it is.

HOW TO PLANT

Proper planting, pruning and watering are essential to the success of nursery stock. The ground should be plowed or spaded deeply. Holes should be large enough so the roots can be spread out without crowding. Soil should be packed firmly around roots so there are no air spaces and so roots are in tight contact with the soil. After planting, water thoroughly with hose twice a week until established.

Gift Certificate

The Answer to Your Gift Problems

A plant or tree is always in good taste — always welcome — always suitable for any occasion - Birthdays, Easter, Christmas, House-warmings, Anniversaries or as a Memorial.

Living plants are the gifts that grow in size and value as the years go on. There is no need to ponder WHAT to select; the recipient has the fun of selecting just what he wants here at the nursery. OR, if you prefer, you may select the plant to be given and there need be no mention of a stipulated amount. The Gift Certificate is so worded that either the particular plant OR the amount given may be specified.

For a Gift Certificate, just SEND US:

- 1. The name and address of the person who is to receive the certificate.
- 2. YOUR name and address.
- 3. Your check or money order for the amount of the gift.

WE WILL:

- 1. Send the Gift Certificate to the recipient at once (or to you, the donor, if you prefer).
- 2. Send the Gift Certificate so as to arrive on a certain date if you will tell us the date.

There is no fuss and bother with the Gift Certificate and more and more people are using this intriguing way of remembering — and being remembered.

NARCISSUS

Japanese Barberry Berberis thunbergi

Naturally a dense, bushy, thorny plant. Its graceful habit, vivid Autumn coloring, and beautiful fruits are its distinguishing features. Since the

fruits are not liked by the birds, they remain the entire Winter, giving a cheerful aspect to many Winter plantings. Not fussy as to soil requirements and will stand semi-shade. The small, sharp thorns make it a barrier to small animals.

Chinese Butterflybush

Buddleia alternifolia

Erect, spreading shrub. The narrow panicles of lavender-purple flowers resemble so much those of the lilac that it is sometimes called the Summer Lilac. This graceful shrub is the hardiest of all the Buddleias.

B. 'Charmina'

A new glorious Buddleia, bearing throughout late Summer and Autumn long sprays which compared with other Buddleias are distinctly pink.

B. 'Ile de France'

A splendid new form. Easily the finest of all Buddleias because of its massive spikes of purple flowers, each illuminated by a brilliant golden eye. Vigorous, free-flowering, hardy type. Price on above varieties of Buddleia:

18 to 24 in. \$1.25 2 to 3 ft.

Yellow-Root Zanthorhiza apiifolia

A low-growing shrub which makes a splendid ground cover. Will grow anywhere, but prefers a moist shady location. The plum-colored flowers in April are not conspicuous, but in the Fall the foliage turns brilliant yellow and is both showy and handsome. 12 to 15 in. \$1.25

SHRUB TRIMMING

The proper time to trim flowering shrubs is after they complete their blooming period. Our men will be available during the summer and winter months for this service.

HOLLAND BULBS

We have shipped to us direct from Holland a comprehensive assortment of Tulips. Narcissus. Hyacinths, Crocus, and miscellaneous bulbs. They leave Holland in late August and arrive at our nursery about September 15th. We handle only the largest bulbs obtainable. Our prices will compare favorably and are not to be confused with smaller sized bulbs. If you want to enjoy Spring Glory of Holland Bulbs you must plant this Fall.

CLIMBING VINES

Some are evergreen like the Euonymus. Others produce beautiful flowers such as the Clematis, Honeysuckle and Wistaria. Should you want Fall color choose the Ivys and for colorful fruits the Bittersweet. They will transform bare walls and fences into beauty spots. For similar purposes may we suggest Climbing Roses which will be found on page 28.

When ten or more plants of the same variety and size are purchased a 10% discount will be allowed.

SPRAYING SERVICE

HEALTHY EVERGREENS are assured when sprayed at the proper time. During the late Winter, dormant spraying may be safely done up to March 15th.

In June and July Evergreen spraying may again be necessary to combat Summer infestations. Our men and equipment are available at these times to render service. Please phone for rates. We are not equipped to spray fruit trees.

TRIMMING SERVICE

Many of the evergreens benefit by an annual shearing. This is especially true of the Taxus, Thuja, Juniper and Hemlock. A good time to do this is late June, July and August. It is much better to trim evergreens moderately each summer. This will make them bushy and compact, and less susceptible to damage during sleet and snow storms.

Our men will be available for this service during the summer or winter months. Please phone for rates.

Culture of Roses does not differ from that of many other plants. They enjoy the best soil you can give them and they require an abundance of water. They must be planted where there is free circulation of air and have regular feeding.

In preparing the bed, cow manure is the best of all fertilizers. If not available in natural form, the prepared or dried cow manure answers perfectly well. Adding bone meal in connection with peat moss or other vegetable matter will provide ample preparation.

Our prices will compare favorably and are not to be confused with smaller sized bulbs. If you want to enjoy the Spring Glory of Holland Bulbs, you must plant this Fall.

PERENNIAL FLOWER SEEDS

R - Indicates Suitable for Rock Gardens

Aside from the matter of economy, there is a great fascination and satisfaction in raising one's own perennial plants.

Perennial seeds may be planted any time from May to July but we recommend sowing fairly early as seed germinates better in cool weather than in the heat of midsummer. The seedlings thus have an opportunity to develop into strong little plants which winter over more successfully.

We list here the most important varieties.

Agrostemma (Mullein Pink). Pkt. 15c.

R—Alyssum Saxatile Compactum (Basket of Gold). Pkt. 15c.

LAWN GRASS SEED

Buying Lawn Grass Seed

Any good mixture of grasses suitable for making a lawn and developing a smooth texture, permanent turf must contain a large percentage of perennial grasses. These are the only grasses that are of permanent growth, remaining year after year, plants increasing in size and vigor and developing into a strong solid turf. These grasses are naturally of slower growth and more costly than those providing quick coverage but less durability.

It is a commonly recognized and admitted fact that the cheaper grass seed mixtures will show quicker and more uniform germination, developing a faster green coverage but in the end do not

make a lawn of the desired appearance or permanency.

These cheaper mixtures, while they may have a place and serve a purpose, can not, because of price, contain a sufficient percentage of the best perennial grasses and the ultimate results from them are usually a disappointment.

After all the work of grading and preparing of the ground for a proper lawn you should use only a good grade and durable seed mixture from a reliable source of supply.

Lawns should be seeded in Spring or Fall

Quantity To Use

The following quantities will be practical on most lawn mixtures. For new lawns, use 1 lb. to 250 sq. ft., 4 lbs. to 1000 sq. ft. For replenishing old lawns we recommend about one-third to one-half this quantity of seed.

ANCO LAWN SEED

"ANCO" (Adams Nursery Co.) is a name we are proud of and is a mixture especially adapted to this area. This serviceable lawn grass is less expensive and produces a good lawn. All lawns at Adams Nursery were produced from this brand.

The analysis is as follows: 30% Kentucky Blue Grass, 27% Chewings Fescue, 25% Red Top,

15% Rye Grass, 3% White Clover.

Asparagus

Mary Washington. Rust resisting and a heavy yielder. The most reliable variety for home or commercial use. Pkt. 15c, 1 oz. 45c, 1/4 lb. \$1.20, I lb. \$3.75.

Asparagus Roots

Mary Washington. General favorite for both home and market garden use. Fine 2-yr. roots. \$2.50 for 50, \$4.50 per 100, \$10.50 for 250.

Beans WAX OR YELLOW-PODDED VARIETIES

In the round pod varieties, Pencil Pod Black Wax still holds top position in the list as a commercial type Bean, and is also extensively used for the home garden. Kinghorn Wax is, however, one of the most beautiful of the wax podded varieties, of excellent quality, and we believe it to be a superior variety for the home garden. Surecrop is still a leader in the thick flat podded sorts and Cherokee Wax is sure tops in the oval podded varieties.

Cherokee Wax. A bean of recent introduction, in reality a wax podded Black Valentine. The plant is large, erect, pods golden yellow, oval and nearly straight. It is tender, of good quality, and stringless at all stages. Pkt. 20c, ½ ib. 45c, I lb. 80c, 2 lbs. \$1.50, 5 lbs. \$3.25.

Pencil Pod Black Wax. Beautiful yellow; slightly curved pods, rounded and meaty. Pkt. 15c, 1/2 lb. 40c, 1 lb. 75c, 2 lbs. \$1.40, 5 lbs. \$3.10.

Round Pod Kidney or Brittle Wax. Of excellent merit; pods almost round, slightly curved, and of light waxy yellow. Supply limited. Pkt. 20c, 1/2 lb. 40c, 1 lb. 75c, 2 lbs. \$1.40, 5 lbs. \$3.20.

Surecrop Stringless Wax. Early stringless variety with thick rather flat pods of rich yellow, sturdy, very productive. Pkt. 20c, 1/2 lb. 40c, 1 lb. 75c, 2 lbs. \$1.40. 5 lbs. \$3.20.

Kinghorn Wax. An outstanding variety that is far superior to many of the older sorts. The golden yellow pods 5 to 6 inches long are round, slightly curved, very meaty and with unusually fine flavor; seed is pure white. Pkt. 20c, $\frac{1}{2}$ lb. 45c, 1 lb. 80c, 2 lbs. \$1.40, 5 lbs. \$3.25.

Bean Cherokee Wax

GREEN PODDED VARIETIES

Contender. A round podded, green podded Bean of delicious flavor; pods are long, often 7 inches, tender and stringless; plants are vigorous and highly productive. A good freezing variety. Pkt. 20c, /2 lb. 45c, I lb. 80c, 2 lbs. \$1.50, 5 lbs. \$3.25.

Asgrow Valentine. Attractive oval pods, nearly straight, dark green, strictly stringless. Pkt. 20c, 1/2 lb. 40c, 1 lb. 70c, 2 lbs. \$1.30, 5 lbs. \$2.75. Bountiful. Flat pod; extra early; great yielder; almost stringless. Pkt. 15c, 1/2 lb. 40c, 1 lb. 70c,

2 lbs. \$1.30, 5 lbs. \$2.75.

Tendergreen. Vigorous, well branched plants. Light green, round, extremely meaty, tender pods 6 to 7 inches long, stringless. Pkt. 20c, ½ lb. 45c, I lb. 80c, 2 lbs. \$1.50, 5 lbs. \$3.25.

DON'T FORGET

Always plan on two or three plantings of snap beans. Keep this in mind when ordering seed. Be sure to have enough.

BUSH SHELL BEANS

French's Strain Dwarf Horticultural. An extremely high-colored, long large-pod strain of Dwarf Horticultural, but a taller growing sort. The pods are almost bright red, being heavily penciled. Pkt. 20c, $\frac{1}{2}$ lb. 50c, 1 lb. 85c, 2 lbs. \$1.60, 5 lbs. \$3.50.

Dwarf Horticultural or Cranberry Bean. Very productive and of excellent flavor. Pkt. 15c, 1/2 lb. 40c, 1 lb. 75c, 2 lbs. \$1.40, 5 lbs. \$3.20.

BUSH LIMA BEANS

Burpee's Improved Bush Lima. The best of the flat-seeded bush limas. Seeds, pods, and plants are large Burpee's Improved supplements rather than competes with Fordhook. Pkt. 20c, 1/2 lb. 40c, 1 lb. 75c, 2 lbs. \$1.40, 5 lbs. \$3.20.

Fordhook Bush Lima 242. Same season and type as old Fordhook but plant taller, more spreading, heavier yielder and better withstands extreme temperature conditions. Pkt. 20c, $\frac{1}{2}$ lb. 45c, 1 lb. 80c, 2 lbs. \$1.50, 5 lbs. \$3.50.

Baby Potato Lima. Small thick beans, bright green when fresh. Similar in flavor to Fordhook. A robust growing bean. Pkt. 20c, $\frac{1}{2}$ lb. 45c, 1 lb. 80c, 2 lbs. \$1.50, 5 lbs. \$3.50.

POLE LIMA BEANS

Early Leviathan Lima. Probably the most dependable Pole Lima. Beans remaining in usable condition over a long period. Pkt. 20c, $\frac{1}{2}$ lb. 45c, 1 lb. 75c, 2 lbs. \$1.40, 5 lbs. \$3.25.

King of the Garden. Large white Lima. Flat pods containing 4 to 5 beans of excellent quality. Pkt. 15c, 1/2 lb. 35c, 1 lb. 65c, 2 lbs. \$1.25, 5 lbs. \$3.00.

POLE BEANS

Improved London Horticultural. Long bright colored pods, good-sized beans. Pkt. 15c, 1/2 lb. 40c, 1 lb. 75c, 2 lbs. \$1.40, 5 lbs. \$3.25.

Kentucky Wonder. Green podded pole string beans. Meaty, almost stringless pods. Pkt. 20c, $\frac{1}{2}$ lb. 45c, 1 lb. 80c, 2 lbs. \$1.50, 5 lbs. \$3.50. Kentucky Wonder Wax. Good quality and tender. Golden yellow pod, free from strings. Pkt. 15c, 1/2 lb. 38c, 1 lb. 70c, 2 lbs. \$1.25, 5 lbs. \$3.00.

Scarlet Runner (Red Flowering Bean). Used as an ornamental vine but Beans are edible and of good quality. Pkt. 20c, 1/2 lb. 45c, 1 lb. 80c.

MEXICAN BEAN BEETLE

Don't let these worry you. Just keep the plants dusted with our "Lucky Strike" Rotenone dust called "Beetle Buster" \$1.00.

. The following varieties are used almost exclusively as dry beans for either baking or stewing: $\frac{1}{2}$ lb. 40c, 1 lb. 75c, 2 lbs. \$1.40, 5 lbs. \$3.25.

Pea or Navy Yellow Eye Red Kidney White Marrow

FAVA OR BROAD BEAN

Long Pod. Very hardy. Plant early, soon as ground is ready. Plants large; pods glossy green; Beans larger than limas; seed reddish-brown. Use same as Limas. Pkt. 20c, 1/2 lb. 40c, 1 lb. 75c, 2 lbs. \$1.40, 5 lbs. \$3.25.

LEGUME AID The Great Seed Inoculant

Seneca Daybreak. Early. Maturing with or just after Seneca 60 but with larger ear; 12 rows of medium narrow, yellow kernels and better eating quality than most early varieties. Pkt. 25c, 1/2 lb. 55c, 1 lb. 95c, 2 lbs. \$1.40.

Golden Beauty. A 1955 All American Award Winner. Cold and wilt resistant. Plants are vigorous, not too tall, fair resistance to bacterial wilt. Ears 10 to 12 rows, kernels attractive yellow, tender and good flavor. A good second early for either home or market garden. Pkt. 20c, 1/2 lb. 60c, 1 lb. \$1.00, 2 lbs. \$1.85.

Marcross 13-6. About the season of Golden Sunshine and 10 to 12 days earlier than Golden Cross Bantam. It is very productive and of excellent quality for so early a corn. Pkt. 20c, $\frac{1}{2}$ lb. 50c, 1 lb. 85c, 2 lbs. \$1.60.

Golden Cross Bantam Hybrid

Seneca 60, High Quality

Carmelcross. Large eared, wilt resistant, medium early Hybrid. Highly recommended for New England and northeastern states. Ears average 12 rows; slightly tapering in shape. Pkt. 20c, 1/2 lb. 45c, 1 lb. 80c, 2 lbs. \$1.45.

Grant. An excellent new Hybrid mid-season Corn maturing just ahead of Golden Cross Bantam but better than other varieties of this season. A good size ear with uniformly deep kernel and excellent quality. Pkt. 20c, 1/2 lb. 45c, 1 lb. 80c, 2 lbs. \$1.45.

Golden Cross Bantam. This is probably the most extensively planted main crop hybrid. The quality is excellent. The ears are very attractive, long and cylindrical with the golden kernels filling them right to the tip. Ideal for either home or market garden and a splendid variety for freezing. Pkt. 20c, 1/2 lb. 45c, 1 lb. 85c, 2 lbs. \$1.50.

Seneca Chief. Maturing almost with or just following Golden Cross Bantam. The ears are long mostly 12 rowed with deep, narrow, exceptionally, tender, high quality kernels. We consider Seneca Chief to be one of the best flavored Corns we know. Extremely heavy yielder and remaining in usable condition over a longer period than other varieties. Do not overlook the fact that it is excellent for freezing. Pkt. 25c, 1/2 lb. 55c, 1 lb. 95c, 2 lbs. \$1.75.

lochief. An outstanding, large, long eared, late hybrid corn. The richly flavored kernels are deep and of attractive yellow color. Plant is upright, strong and resistant to lodging with very few or no suckers. Pkt. 25c, 1/2 lb. 55c, 1 lb. 95c, 2 lbs. \$1.75.

Here is a Garden Suggestion

Instead of planting a couple of varieties of Sweet Corn in a hit or miss schedule resulting in some days without corn and some with too much, why not try a package of our "SWEET CORN ALL SUMMER." In this package is one packet of each of the five varieties of Hybrid Sweet Corn listed below. Plant them all at one time and have a complete succession of Sweet Corn from early to late. Varieties are:

Seneca 60 Golden Beauty Grant

Golden Cross Bantam lochief
Each packet will plant 20 to 25 hills, or the 5
packets are sufficient for approximately 125 hills
of corn

INFORMATION FOR OUR CUSTOMERS

TERMS: All prices in this catalogue are CASH PRICES but for the convenience of our customers, we are glad to extend thirty-day terms to established accounts. Also to open new accounts, via references, if order amounts to \$10.00 or more. On first orders, for less than \$10.00, please send check or money order. Our guarantee is void on overdue accounts.

SHIPPING METHODS: Shipments will be forwarded as purchasers direct, but in the absence of instructions we will use our best judgment and forward plants by shortest and safest route SHIPPING SEASON: Our shipping season usually begins early in April. Perennials and stock dug with a ball of earth can be moved anytime except during the winter months. Trees and dormant stock can be transplanted either in the Spring or after a killing frost in the Fall. We are not open for business on Sunday.

Guarantee

SIX MONTHS' GUARANTEE: We guarantee to furnish nursery stock in first class condition so that with proper after-care, losses will be reduced to a minimum. Should any stock purchased at our retail prices fail to grow within six months, we will resupply; however, any labor incidental to planting replacements must be paid for by the purchaser.

Should we not have the same plants in stock we reserve the right to give credit for the amount

paid or supply other plants of equal value.

We will cheerfully resupply any plant found not true to name, or we will refund the amount paid for the same, but it is mutually understood that at no time shall we be held responsible for a greater sum than the purchase price.

Our guarantee is void on accounts not paid within thirty days after date of invoice.

Deliveries:

We can deliver without charge on such days as we have trucks in that particular section to the following counties in Massachusetts: Hampden, Hampshire, Franklin, Berkshire, and the western part of Worcester County. Also Hartford County, Connecticut. If a customer desires delivery outside of our regularly scheduled delivery, or a specific day or hour, there will be a minimum charge of 45 cents per mile, one way for this special service.
